

ceres::LossFunction

```
graph BT; TL[ceres::TolerantLoss] --> LF[ceres::LossFunction];
```

The diagram illustrates an inheritance relationship between two Ceres classes. At the bottom is a gray box labeled 'ceres::TolerantLoss'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'ceres::LossFunction'. This indicates that 'ceres::TolerantLoss' inherits from 'ceres::LossFunction'.

ceres::TolerantLoss
