

Vector3d

```
graph BT; GNSS[GNSS] -.->|blh std| Vector3d[Vector3d];
```

The diagram illustrates a data conversion process. At the bottom, a grey rectangular box labeled 'GNSS' represents the input data. A dashed purple arrow points upwards from this box to a white rectangular box labeled 'Vector3d' at the top. Along the arrow, the text 'blh' and 'std' are stacked vertically, indicating the specific data fields being converted.
